Professional Summary

Highly analytical and results-driven cybersecurity professional with a strong foundation in security operations, threat analysis, and incident response. Holds a Bachelor's Degree in Computer Network & Cybersecurity and multiple industry-recognized certifications. Adept at identifying vulnerabilities, analyzing security threats, and implementing mitigation strategies to safeguard enterprise systems. Excels in collaborating with cross-functional teams to ensure the integrity and resilience of IT infrastructure while maintaining compliance with industry standards.

Technical Skills & Competencies

- **Security Operations & Incident Response:** Threat monitoring, log analysis, and response coordination.
- **Network Security & Forensics:** Packet analysis, vulnerability scanning, and forensic investigations.
- **Security Tools & Technologies:** SIEM, IDS/IPS, firewalls, network monitoring, forensic tools.
- **Compliance & Risk Management:** NIST, CIS, SOC2, HIPAA, ISO 27001.
- **Operating Systems & Platforms:** Windows Server, Linux (Kali, Ubuntu), VMware, VirtualBox.
- **Analytical & Communication Skills:** Incident documentation, report generation, and stakeholder collaboration.

Professional Experience

Cyber Security Operator

JFL Consulting – Springfield, VA

January 2025 – Present

- Monitor and analyze security events using SIEM tools to identify potential threats and vulnerabilities.
- Conduct incident response activities, including investigation, containment, eradication, and recovery.
- Perform threat intelligence analysis to proactively mitigate security risks.
- Assist in vulnerability assessments and penetration testing to enhance security posture.
- Maintain compliance with cybersecurity frameworks and industry regulations.
- Collaborate with internal teams to implement security policies, standards, and best practices.

Corporate System Administrator

Resource Management Concepts, Inc. – Lexington Park, MD

September 2023 – January 2025

- Managed and secured enterprise IT infrastructure, including servers, networks, and endpoint devices.
- Provided technical support and system maintenance, ensuring optimal performance and security.
- Conducted patch management and system hardening to mitigate security risks.
- Administered user access, security policies, and compliance controls.
- Assisted in security audits and compliance assessments.
- Developed documentation and reports to support IT security initiatives.
- Served as the ISSO's backup, assisting in network monitoring using security tools and firewall solutions.
- Aided in the creation and implementation of security policies to enhance compliance and risk management.
- Managed IT assets, maintaining inventory records for audits and stakeholder reporting using spreadsheets.

IT/End-User Support & Lead Dental Assistant

Simply Beautiful Smiles – Waldorf, MD

January 2017 – September 2023

- Provided IT support for office systems, troubleshooting network and software issues.
- Maintained HIPAA-compliant digital imaging and record management systems.
- Conducted data backups and ensured IT security best practices.
- Instructed employees on software applications and cybersecurity awareness.

Education

Bachelor's Degree in Computer Network & Cybersecurity, Cum Laude

University of Maryland Global College – Adelphi, MD

May 2022

Associate of Applied Science in Cybersecurity, Honors

College of Southern Maryland – La Plata, MD

December 2020

Certifications

- (ISC)² Certified in Cybersecurity (CC)
- CompTIA Security+
- CompTIA Network+

- CompTIA A+
- CompTIA Linux+
- Google IT Support

Technical Proficiency

- Security Analysis: SIEM, IDS/IPS, vulnerability scanning.
- Networking: TCP/IP, firewalls, VPN, packet analysis.
- Endpoint Security: EDR, malware analysis, digital forensics.
- Cloud & Virtualization: VMware, VirtualBox, cloud security.
- Compliance & Standards: NIST, CIS, SOC2, HIPAA.

Awards & Memberships

- Alpha Sigma Lambda Honor Society
- Upsilon Pi Epsilon Honor Society
- Phi Theta Kappa Honor Society
- Dean's List Recognition

Additional Information

- U.S. Citizen, authorized to work for any employer.
- Excellent analytical skills and attention to detail.
- Excellent verbal and written communication skills for technical documentation and reporting.
- Active Secret Clearance; pursuing TS clearance eligibility.
